ICN - Being the Global Voice of Nursing
Our **Board and Members**

Strategic leadership and oversight of a high performing organisation
ICN Strategic Plan 2019-2023

1. Global Impact

Goal: Inform and influence the design and implementation of health, social, educational and economic policies at a global and regional level to promote health for all.

2. Membership Empowerment

Goal: Strengthen National Nursing Associations (NNAs) across the three pillars of ICN to enable them to address key challenges at regional and national levels.

3. Strategic Leadership

Goal: Provide strategic leadership to advance the nursing profession to meet current and future needs of the population, health systems (including health and social care) and nurses.

4. Innovative Growth

Goal: Identify, secure and diversify business and revenue generating opportunities, consistent with our values, to attain ICN goals.
ICN Strategic Health Priorities

1. Universal Health Coverage
2. Non-communicable Diseases
3. Primary Health Care
4. Human Resources for Health
5. Person Centred Care
6. Patient Safety
7. Antimicrobial resistance
8. Mental Health
9. Immunisation
10. Sustainable Development Goals
Delivering for nurses
International Nurses Day - Nurses: A Voice to Lead

- Increased utilisation of our IND publications

- Global contributions
- Inspired a movement

Sustainable Development Goals

Health is a Human Right

Health for All
Our **Collaboration Plan** with the World Health Organization

**Strengthening our relationship with WHO**

- ICN is in official relations with WHO
- Area 1: Universal Health Coverage
- Area 2: Promoting Healthier Populations
- Area 3: Addressing Health Emergencies
Our influence with the World Health Organization

Continue to build on our successes

ICN strongly advocated for the appointment of a Chief Nursing Officer at the WHO.

Dr Tedros announced the appointment of Elizabeth Iro as WHO’s Chief Nursing Officer.
Our ability to **influence** Interventions on the global stage

- ✓ 2020 ‘Year of the Nurse and Midwife’
- ✓ Patient Safety
- ✓ Primary Health Care
- ✓ State of the World’s Nursing
- ✓ 72nd World Health Assembly
Our ability to **influence**

WHO Independent High Level Commission on Noncommunicable Diseases (NCDs)

- Recognition of the crucial role of nursing in addressing NCDs
- Emphasises opportunities to support the nursing workforce to improve health systems
“I hope the designation of 2020 as the international year of the nurse and midwife will provide us with a 20-20 vision of what nursing is in the modern era, and how nurses can light the way to Universal Health Coverage and healthcare for all.”

ICN President
