No part of this publication may be reproduced in print, by photostatic means or in any other manner, or stored in a retrieval system, or transmitted in any form, or sold without the express written permission of the International Council of Nurses. Short excerpts (under 300 words) may be reproduced without authorization, on condition that the source is indicated.

**Title:** Hospitalized Paediatric Client

**Catalogue Type:** Terminology Subset

**Publication Date:** 2011, Updated 2013

**Authors:**

Beverly J. Collins, PhD-C, RN, Student, University of Minnesota School of Nursing, Minneapolis, Minnesota, USA

Kay Jansen, DNP, RN, Terminology Manager, ICNP® Programme, International Council of Nurses, Geneva, Switzerland

**Background:** The International Classification for Nursing Practice (ICNP®) is a unified nursing language system that supports the standardisation of nursing documentation at the point of care. The resulting data-based information can be used for planning and managing nursing care, financial forecasting, analysis of patient outcomes and policy development. The ICNP Strategic Advisory Group and many other expert nurses involved with ICNP have recognised that manageable subsets of the terminology should be available to nurses working with patients or clients in selected specialties and settings.

The purpose of a catalogue is to make ICNP a useful tool for nurses at the point of care. Catalogues are subsets of ICNP that allow nurses to more readily integrate ICNP into their practice as they work in a specialty area or with clients having specific health conditions or needs.

Catalogues do not replace the clinical judgement of the nurse. Nurses can use Catalogues as reference tools for documenting care and reflecting on their practice. Nurses' clinical judgement and decision-making are essential for individualised care of patients and their families and cannot be replaced by any tool.

Concept Type	Code	ICNP Statement (2013 Release)
<b>Diagnoses and Outcomes</b>		
	10023499	Acceptance Of Health Status
	10027634	Effective Activity Tolerance
	10028555	Effective Body Tissue Integrity
	10041334	Effective Breathing
	10035077	Effective Cardiac Process
	10033709	Effective Electrolyte Balance
	10035904	Effective Family Ability To Participate In Care Planning
	10033721	Effective Fluid Balance
	10033811	Effective Neurological Status
	10028160	Effective Respiratory System Process
	10033848	Effective Thermoregulation
	10037305	Impaired Cardiac Process
	10037322	Impaired Nervous System Process
	10023362	Impaired Respiratory System Process
	10027938	Improved Suicide Risk
	10023032	Infection
	10028945	No Infection
	10023130	Pain
	10025831	Pain Control
	10025002	Positive Nutritional Status
	10035666	Readiness for Discharge
	10015011	Risk For Activity Intolerance
	10037314	Risk for Impaired Cardiac Process
	10037230	Risk for Impaired Coping
	10032364	Risk for Impaired Family Coping
	10026951	Risk For Impaired Fluid Volume
	10037333	Risk for Impaired Nervous System Process
	10037224	Risk for Impaired Nutritional Status
	10037346	Risk for Impaired Respiratory System Process
	10015237	Risk For Impaired Skin Integrity
	10015244	Risk For Impaired Thermoregulation
	10015133	Risk For Infection
	10015302	Risk For Self Destructive Behaviour
<b>Interventions</b>		
	10037248	Administering Antipyretic
	10023084	Administering Pain Medication
	10030527	Assessing Ability To Mobilise
	10037295	Assessing for Sign of Discomfort
	10026119	Assessing Pain
	10033922	Assessing Skin Integrity
	10037269	Assisting with Eating or Drinking

Concept Type	Code	ICNP Statement (2013 Release)
	10036508	Assisting with Mobility
	10035887	Collaborating With Family
	10035873	Collaborating With Patient
	10023554	Collaborating With Pharmacist
	10023565	Collaborating With Physician
	10023577	Collaborating With Social Worker
	10006016	Discharge Planning
	10026616	Facilitating Ability To Communicate Feelings
	10035927	Facilitating Family Ability To Participate In Care Plan
	10037276	Implementing Seizure Management Regime
	10036336	Implementing Suicide Precautions
	10037351	Maintaining Airway Clearance
	10037398	Maintaining Isolation Technique
	10035991	Managing Energy Conservation
	10035240	Managing Fluid Volume
	10036256	Managing Mood
	10036013	Managing Nutritional Status
	10011660	Managing Pain
	10034285	Monitoring Cardiac Status
	10035303	Monitoring Fluid Intake
	10035319	Monitoring Fluid Output
	10032099	Monitoring Laboratory Result
	10035326	Monitoring Neurological Status
	10036032	Monitoring Nutrition
	10012196	Monitoring Respiratory Status
	10012203	Monitoring Signs And Symptoms Of Infection
	10035335	Monitoring Tissue Perfusion
	10032121	Monitoring Weight
	10039369	Oxygen Therapy
	10015649	Preventing Cross Infection
	10024438	Prioritising (treatment) Regime
	10036218	Promoting Caregiver Role
	10036045	Promoting Diversional Therapy
	10035936	Promoting Effective Coping
	10037379	Promoting Physical Mobility
	10015817	Promoting Positive Thermoregulation
	10037367	Providing Supporting Device
	10026415	Referring To Occupational Therapy
	10024019	Referring To Physical Therapy
	10024570	Supporting Caregiver
	10024589	Supporting Decision Making Process
	10032859	Supporting Family Coping Process

Concept Type	Code	ICNP Statement (2013 Release)
	10033086	Teaching Caregiver
	10021719	Teaching Family About Disease
	10036130	Teaching The Family About Community Services
	10035467	Use Supportive Positioning
