Title: ICNP to SNOMED CT (Systematized Nomenclature of Medicine Clinical Terms) Equivalency Table for Diagnosis and Outcome Statements

Catalogue Type: Terminology Cross-mapping

Publication Date: 31 July 2018

Authors:

Nicholas Hardiker, PhD, RN, FACMI and Tae Youn Kim, PhD, RN, on behalf of the International Council of Nurses, Geneva, Switzerland

Note: The purposes of this catalogue are to facilitate a) documentation of nursing diagnoses and outcomes by nurses within the electronic patient record; b) consistent and meaningful communication within the discipline of nursing and across other professions; c) description, comparison and reuse of data worldwide; and d) retrieval of comparable nursing data to evaluate quality of care and to direct policy. This catalogue is a product of the International Council of Nurses (ICN). It forms part of ongoing work carried out under a collaboration agreement between ICN and International Health Terminology Standards Development Organisation (IHTSDO) (ICN, 2014). Users of the table should comply with licensing arrangements for both ICNP and SNOMED CT.

Background: The International Classification for Nursing Practice (ICNP[®]) is a unified nursing language system that supports the standardisation of nursing documentation at the point of care. The resulting data-based information can be used for planning and managing nursing care, financial forecasting, analysis of patient outcomes and policy development.

In this project, the ICNP 2017 Release was the source terminology and SNOMED CT (07-31-2018 Release) was the target terminology. Of the 857 ICNP diagnosis and outcomes concepts, a total of 529 concepts (62%) were mapped to SNOMED CT. These represent those equivalencies that had been validated by the IHTSDO Nursing Special Interest Group at the time of publication.

Use of SNOMED CT:

Access within IHTSDO member countries is provided by the Member National Release Centre in each country, via the relevant Member web page. Affiliates of IHTSDO in non-member countries can access the table through their MLDS account (Member Licensing and Distribution Service) – www.mlds.ihtsdotools.org. Please contact info@ihtsdo.org for more information if required.
