Main competencies in the European Directive (I)

Directive 2013/55/EU of the European Parliament and of the Council, of 20 November 2013, amending Directive 2005/36/EC on the recognition of professional qualifications.

Article 37.1

Minimum competencies that nurses responsible for general care must be able to apply.

Included in Royal Decree 581/2017, 9 June (Art. 42.7)

Main competencies in the European Directive (II)

Directive 2013/55/EU of the European Parliament and of the Council, of 20 November 2013, amending Directive 2005/36/EC on the recognition of professional qualifications.

Article 37.1

Competence to **independently diagnose** the nursing care required using current theoretical and clinical knowledge and to **plan, organise and implement nursing care when treating patients** on the basis of the knowledge and skills acquired in order to improve professional practice.

Law regulating healthcare professions

Law 44/2003, 21 November, Regulation of Healthcare Professions (LOPS).

Article 4.7

“The nursing profession shall be practiced with **full technical and scientific autonomy**, without any other limits than the ones established in this law and according to the **principles and values** enshrined in the **legal system and in the code of ethics and conduct**”

Nurse prescribing competencies (Spain)

Order CIN/2134/2008, of 3 July, establishing the requirements for the verification of the official university degrees that allow the practice of the nursing profession.

- To use medicines evaluating the expected benefits and associated risks and/or effects derived from their administration and consumption.
- To know the **use and indication of health products** linked to nursing care.
- To know the different groups of drugs, **the principles for their authorisation, use and indication**, and their action mechanisms.
