

Dear Marie,

Thank you for the message and kind letter from honourable colleagues.

At this phase I would answer by one sentence: If I am honoured to be elected as Regional Director, within structural changes, I plan to have three new appointments in regional office and those are Technical Director, Chief Scientist and Chief Nurse.

I would be very happy to use an opportunity in a near future for meeting and discussing many important aspects of current developments in public health and crucial role of nurses and midwives.

With best regards,

Tatul Hakobyan
